ahmedmustak99@gmail.com

Dhaka, Bangladesh

EXPERIENCE

Software Engineer

ACI Limited

10/2024 - Present Dhaka, Bangladesh

- Build and maintain responsive, high-performance web interfaces using React, Next.js, Vue.js, and Nuxt.js.
- Integrate REST APIs and translate Figma designs into pixel-accurate, cross-browser UI components.

Frontend Developer

Yuma Technology

12/2023 - 10/2024 Dhaka, Bangladesh

- Developed responsive web apps using Vue.js/Nuxt.js and React, integrating REST APIs for dynamic product features.
- Collaborated with designers and backend developers in an agile team environment.

Frontend Developer — Remote, Part-time Contract

Team Oreo

12/2023 - 10/2024 London, UK

Concurrent, part-time remote contract alongside full-time role at Yuma Technology.

- Delivered frontend features remotely for a UK-based team, working asynchronously across time zones on evenings/weekends.

Junior Software Engineer

Neutron Ltd

03/2023 - 11/2023 Khulna, Bangladesh

- Contributed to frontend development (JavaScript, React, Vue.js) with PHP/Laravel backend integration in a small engineering team.

Senior Officer

Walton Digi-Tech Industries Limited

05/2022 - 03/2023 Dhaka, Bangladesh

Non-engineering, administrative role in a different department — outside the core software development track.

EDUCATION

BSc in Computer Science & Engineering

Varendra University

09/2017 - 10/2021 Rajshahi, Bangladesh

HSC

Nowhata Govt. Degree College

01/2014 - 01/2017 Rajshahi, Bangladesh

PROJECTS

Hausly — Property Booking Platform

Nuxt 3 · Vue 3 · Pinia · Tailwind CSS · Google Maps API · REST API

Property rental and booking platform with multi-currency support, real-time availability, offer management, and a host dashboard. — hausly.com

Advanced PMS — HR Performance System

Vue 3 · Pinia · Ant Design Vue · Tailwind CSS · ApexCharts · REST API

Performance management system with KPI tracking, scorecards, dashboards, annual appraisals, approval workflows, and role management.

Spine Care BD — Corporate Website & Inventory System

Next.js · React · Vue 3 · REST API

Corporate website and internal inventory management system for a medical device distributor's surgical and spine-care product line. — spinecare.com.bd

SUMMARY

Frontend-focused Software Engineer with 4+ years of experience building responsive, high-performance web applications with Vue.js, React, and Next.js. Strong at turning designs into pixel-perfect, user-friendly interfaces and integrating REST APIs, with experience across product companies and remote contract projects.
